Top Skills

Workflow Optimization
Natural Language Processing (NLP)
Microsoft Power Automate

Certifications

Data analytics
Power Automate - Complete Guide to Microsoft Power Automate
EF SET English Certificate 87/100 (C2 Proficient)
Career Essentials in Generative AI by Microsoft and LinkedIn
What Is Generative AI?

Solomon Olusanya

Data Analyst || AI Data Annotator || Power BI expert || SQL || PYTHON || Power Automate || Agric Extensionist/Innovator
Abuja, Federal Capital Territory, Nigeria

Summary

A result-oriented Data analyst and A Graduate of Agricultural Extension and Rural development with an innovative mindset. A self-driven Data analyst with excellent communication and writing ability, seeking to build a strong, versatile, creative and innovative career in any organization that would support maximum and efficient utilization of my skills geared towards the achievement of organizational goals with skills and knowledge of Implementing and using automated tools to extract and analyze data from primary and secondary sources.

Use of technical tools such as: Power Bi (data visualization)

- Python
(NumPy, Panda, Matplotlib)

- Microsoft Office tools
(Excel, Word)

- MySQL
- Power Automate

with knowledge of

1. Removing corrupted data and fixing coding errors and related problems.
2. Designing, developing, and implementing new ET processes employing industry standards and best practices to enhance loading of data from and into different sources/target systems.
3. Developing and maintaining databases, data systems - reorganizing data in a readable format.
Performing analysis to assess quality and meaning of data.
4. Using statistical tools to identify, analyze, and interpret patterns and trends in complex data sets that could be helpful for the diagnosis and prediction.

Experience

Hugo

3 years 4 months

Quality Analyst

January 2025 - Present (1 year 9 months)

Lagos

Gen AI analyst

- Efficiently utilized quality rubrics to audit and evaluate raters' annotated tasks, ensuring alignment with project metrics.
- Conducted spot checks on annotations, providing constructive and actionable feedback to enhance quality and accuracy.
- Identified and communicated error trends to raters, team leads, and project managers, fostering a culture of continuous improvement.
- Facilitated coaching and training sessions to support raters in meeting quality expectations and adhering to guidelines.

Data Annotator

June 2023 - January 2025 (1 year 8 months)

Lagos State, Nigeria

Proficiently labeled and tagged diverse data, contributing to the creation of 1000+ accurately labeled datasets for machine learning models.

- Annotated diverse data with 98.5% accuracy, delivering 50+ high-quality datasets, and conducted thorough quality checks on 500,000+ samples, resulting in consistent and reliable annotated datasets.
- Consistently achieved a 95% task completion rate, adeptly adapting between tasks, and drove a 20% improvement in annotation efficiency through the refinement of guidelines and processes.

Turing

Business Analyst Contract

January 2026 - May 2026 (5 months)

- Conducted 500+ side-by-side evaluations weekly of AI-generated outputs, assessing factual accuracy, relevance, and response quality.
- Produced 100+ analytical justifications weekly, strengthening evaluation consistency and RLHF feedback quality.
- Maintained 95%+ adherence to evaluation rubrics across complex fact-checking and quality review tasks.
- Improved evaluation turnaround by 20%+ through efficient research workflows and validation tooling.

TRANSLATED.COM

Human Resources Trainer

August 2024 - January 2025 (6 months)

- Evaluated and compared responses from AI systems and human contributors to specific prompts, ensuring adherence to task guidelines for quality.
- Provided detailed analysis of response quality based on established rating frameworks, including Helpfulness and Accuracy.
- Contributed to refining AI training datasets through precise annotations, improving model performance and user experience.

Devcent Trainings

Data Analyst

September 2022 - May 2023 (9 months)

Ogun, Nigeria

Educated students on SQL (Structured Query Language), Data manipulative language (the Big 6), aggregate and windows functions, table relationship, database design and data types.

Delivered high-quality instructions through the planning and implementation of effective learning strategies, to increase the learning process.

TedPrime Hub

8 months

Data Analyst intern

April 2022 - August 2022 (5 months)

Abeokuta, Ogun, Nigeria

Implemented automated tools to extract and evaluate data from primary and secondary sources such as SQL,

Incorporated Microsoft SQL, excel and power bi to evaluate a sales data set o

Data Specialist

January 2022 - August 2022 (8 months)

- Built SQL / Microsoft Power BI dashboards and analyzed datasets of 50k+ records, identifying trends that improved reporting and decision-making.
- Designed relational database models, cleaned corrupted datasets, and automated reporting workflows using SQL, Excel, and Power BI.
- Delivered technical instruction in SQL, data modeling, aggregate/window functions, CTEs, and database design to learners and junior analysts.

Education

Federal University Of Agriculture, Abeokuta
Bachelor of Applied Science - BASc, Agricultural Business and
Management · (2014 - 2021)

Nigerian Navy secondary school Abeokuta
· (September 2009 - June 2014)

Federal University Of Agriculture, Abeokuta
Bachelor's Degree, Development Studies
