• ABOUT ME

I am an Agricultural Extension and Rural Development graduate with a growing interest in the intersection of agriculture, data, and technology. My experience in agricultural practice, data analytics, and AI has shaped my goal of using digital and intelligent technologies to support sustainable and data-driven agricultural decision-making.

• EDUCATION & TRAINING

15 Sep 2014 - 7 Jan 2021 - ABEOKUTA, NIGERIA

BACHELOR OF AGRICULTURE IN AGRICULTURAL EXTENSION AND RURAL DEVELOPMENT-
FEDERAL UNIVERSITY OF AGRICULTURE, ABEOKUTA (FUNAAB)

Final grade: Second Class Upper | CGPA: 3.70

• WORK EXPERIENCE

HUGO TECHNOLOGY - LAGOS (REMOTE), NIGERIA

QUALITY ANALYST (ML, GEN AI, MMLLM & LLM) 6 JAN 2025 - 4 SEP 2026

- Audited and evaluated raters' annotated tasks using project quality rubrics and guidelines.
- Conducted annotation spot checks and provided actionable feedback to improve quality and accuracy.
- Identified recurring error trends and communicated findings to raters, team leads, and project managers.
- Facilitated coaching and training sessions to support adherence to quality expectations and project guidelines.

DATA ANNOTATOR 12 JUN 2023 - 3 JAN 2025

- Labeled and tagged diverse datasets supporting machine-learning and AI model development.
- Achieved 98.5% annotation accuracy and conducted quality checks across 500,000+ samples.
- Maintained a 95% task-completion rate and contributed to process improvements that increased annotation efficiency.

29 JAN 2026 - 27 MAY 2026 - REMOTE, UNITED STATES

BUSINESS ANALYST (CONTRACT) TURING

- Conducted 500+ side-by-side evaluations weekly of AI-generated outputs, assessing factual accuracy, relevance, and response quality.
- Produced 100+ analytical justifications weekly to support consistent evaluation and RLHF feedback.
- Maintained 95%+ adherence to evaluation rubrics across fact-checking and quality-review tasks.
- Improved evaluation turnaround by 20%+ through efficient research and validation workflows.

Website: work.turing.com

9 SEP 2024 - 20 DEC 2024 - REMOTE, UNITED STATES

AI TRAINER TRANSLATED

- Evaluated and compared AI-system and human-generated responses against defined quality criteria and

task guidelines.

- Analysed response quality using established frameworks, including helpfulness and accuracy.
- Contributed precise annotations and feedback to support the refinement of AI training datasets.

21 OCT 2022 - 6 JUN 2023 - ABEOKUTA, NIGERIA

DATA ANALYST INSTRUCTOR DEVCENT TRAININGS

- Developed learning materials, exercises, and assessments for data and business analytics training.
- Taught SQL, data manipulation, aggregate and window functions, table relationships, CTEs, database design, and data types.
- Delivered high-quality instructions through the planning and implementation of effective learning strategies, increasing the learning process.

3 JAN 2022 - 1 FEB 2023 - ABEOKUTA, NIGERIA

ASSOCIATE AGRICULTURE EXTENSION OFFICER | FLEXIBLE OPENWAY CONSULT

- Supported relationships between farmers, stakeholders, researchers, and institutions providing technical expertise.
- Prepared reports and presentations for farmers, stakeholders, and extension workers through slide and verbal presentation.
- Supported promotion of sustainable and innovative farming practices through field demonstrations and practical activities

17 JAN 2022 - 8 AUG 2022 - ABEOKUTA, NIGERIA

DATA ANALYST INTERN TEDPRIMEHUB

- Used SQL, Excel, and Power BI to analyse sales datasets containing 50,000+ records and identify trends in revenue and profitability.
- Designed relational database models and relationships and cleaned redundant or corrupted data for improved interpretation.
- Developed dashboards and analytical reports to communicate findings and support decision making.

1 MAY 2018 - 1 JAN 2019 - ABEOKUTA, NIGERIA

AGRICULTURAL MANAGEMENT INTERN DIRECTORATE OF UNIVERSITY FARMS, FUNAAB

- Worked with a team of 50+ in coordinating crop cultivation and monitoring farm activities against production goals.
- Conducted workload assessments and supported operational improvements.
- Collected 150+ survey responses on the effect and use of organic manure in crop production.
- Prepared farm finance records, budgets, and daily activity reports for management review.

● **SKILLS**

Agriculture

Farm Management. | Organizational and planning skills

Data and AI

Microsoft Office | Python | SQL | Data Collection, Data Cleaning, Data Analysis, Data Visualisations | Data Annotation | Git, GitHub (novice) | API Integration | Power Query ,Power BI

● **VOLUNTEERING**

6 JAN 2025 - 11 FEB 2025 Abeokuta

- Supported in-person community outreach and mobilisation activities engaging young people in civic participation.
- Raised awareness among young people and community members about leveraging civic-technology tools for civic engagement.

● CERTIFICATIONS

26 SEP 2022 365 Careers
Data Analytics with Python

20 AUG 2022 365 Careers
SQL / MySQL for Data Analytics and Business Intelligence

Online -

29 JUL 2022 TEDPRIMEHUB
Power BI Data Analyst Associate

Project Based -

24 FEB 2021 Federal University of Technology, Akure
Certificate in Data processing

● PROJECTS

1 AUG 2026 - CURRENT

- Building practical foundations in agentic AI through hands-on Python development, API integration, Git/GitHub workflows, and development in Cursor.
- Developing an agriculture-focused AI agent project to understand how AI systems can use tools, instructions, and external capabilities to support real-world agricultural use cases.
- Learning software-development practices including virtual environments, version control, and API-based application development.
